

Please save Indiana No-Call. The intrusions have already begun from a banking organization from the state of Georgia. The initiate a computer generated call with a message that you are late on a mortgage payment. The caller ID shows a toll free number 800-627-1991. I called the number and was asked for a 10 digit loan number. The name of the company is Net Bank from Atlanta, Georgia. We have not ever done business out of state nor do we have a mortgage. I asked that we not be called again.
